

TrueProp Software selected FINALIST for the 2019 New Hampshire Granite State Growth Competition!

It is an honor to announce that TrueProp Software was named a finalist in the 2019 Regional Economic Development Center's (REDC) Granite State Growth Competition. The competition showcased young and innovative New Hampshire businesses. The Granite State Growth Competition started with more than thirty applicants. After participating in several rounds of pitching and narrowing the numbers of competitors, a panel of judges selected TrueProp Software as one of five finalists.

About TrueProp Software LLC

TrueProp Software LLC develops software for marine propeller inspection. Established in 2016, the TrueProp software provides device-agnostic management of propeller scanning, compliance checking, and reporting. Our driving philosophy is to provide the propeller manufacturing, sales, and repair community with the highest quality tools for inspection, repair guidance, and compliance reporting. www.truepropsoftware.com
